

PINOUT (Modem Versions, Low Power)

Modulator:

Same PCB: With horizontal length side: plugins facing top: (L->R, 1 to 16)

Overall:

1,2,3,4: V in - carrier (500kHz, sine)

5,6,7: V in (audio wave)

13,14,15,16: GND (0V)

Non LC:

Right side 6 pin male cluster: (all): V out (modulated)

LC:

11,12: V out (modulated)

Demodulator:

Same PCB: With horizontal length side: plugins facing top: (L->R, 1 to 16)

1,2,3: Vout (demodulated)

6,7: Vout (demodulated without DC offset)

9,10,11: Vin (modulated signal)

14,15,16: GND (0V)
